

Europlanet Society Regional Hubs

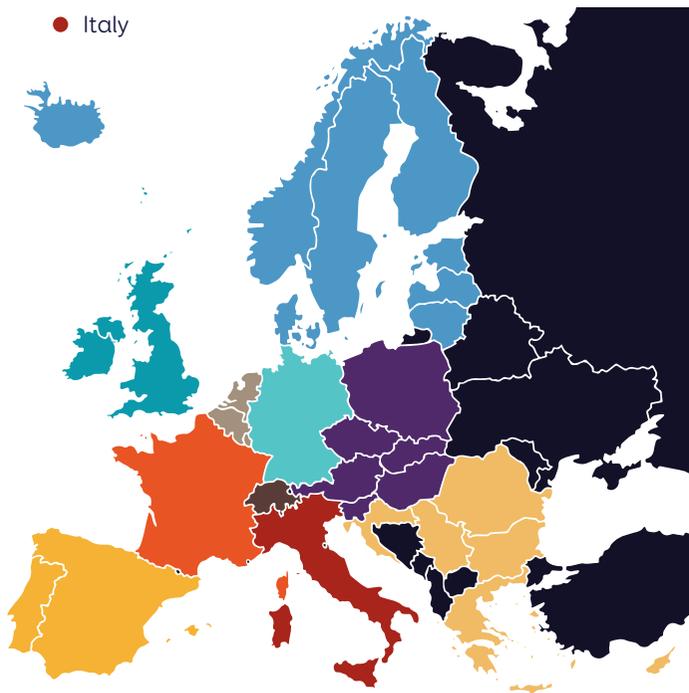

The Europlanet Society Regional Hubs **support the development of planetary sciences** at a **national** and **regional level**, particularly in areas that are currently under-represented within the community.

The Regional Hub Committees share news and organise events to **build links** at a local level with planetary researchers, amateur astronomers, industrial partners, policymakers, educators, the media and the wider public.

Europlanet Society members are **welcome to participate** in the activities of one or more Hubs.

The 10 Regional Hubs:

- Benelux
- Central Europe
- France
- Germany
- Ireland and UK
- Italy
- Northern Europe
- Portugal and Spain
- Southeast Europe
- Switzerland

SOCIETY

The European Community
for Planetary Sciences

What is the Europlanet Society?

The Europlanet Society promotes planetary sciences in Europe for the benefit of its community. The Society is open to both individuals and organisations. Launched in 2018, it builds on 15 years of successful Europlanet projects funded by the European Commission.

The Europlanet Society aims to:

- Expand and support a **diverse and inclusive community** for planetary sciences across Europe, underpinned by 10 Regional Hubs.
- Raise awareness of planetary sciences through **outreach, education** and **policy engagement**.
- Strengthen the **leading role of Europe** in planetary sciences by developing links with academia and industry at national and international levels.

The Europlanet Society's **European Planetary Science Congress (EPSC)** is the **largest annual meeting** for planetary sciences in Europe.

The day-to-day running of the Europlanet Society is managed by the Europlanet Society Executive Office, hosted by the European Science Foundation (ESF) in Strasbourg, France.

Corporate membership

Corporate membership is open to **any institution, organisation or association** involved in planetary sciences or related fields.

Corporate membership benefits include:

- Representation at the Europlanet Society **General Assembly**, which elects officers and shapes policy and governance.
- **Individual memberships** for staff to join the Society.
- **Reduced rates** for Europlanet events, including the annual European Planetary Science Congress (EPSC).
- Input into **policy and strategy** papers and consultations.
- **Invitation-only events** with stakeholders, policy makers and funders.
- Representation in **Europlanet's international networks** of research organisations, industrial partners, agencies and societies.
- Access to **Europlanet resources**, including the Europlanet Media Centre and industry database.
- Promotion of your **news** and **job information** through Europlanet channels.
- Privileged access to the Europlanet Society's Newsletters and **Members Area**.

Members Area

Access the Europlanet Society's **exclusive content** on the website, including **strategic information** relevant to planetary sciences, guides to upcoming funding calls and collaboration opportunities.

Individual membership

Individual membership is open to **active researchers, early career scientists, students and retired scientists**, as well as **amateur astronomers, industrial partners, outreach providers and educators**.

Individual membership benefits include:

- Opportunities to **shape the future of planetary sciences in Europe** by electing or standing for offices and committee positions in the Europlanet Society.
- **Reduced rates** for Europlanet events, including the annual European Planetary Science Congress (EPSC).
- Participation in **events** with policy makers and funders.
- Support from Regional Hubs in **developing local networks** for planetary sciences.
- Input into **policy and strategy** papers and consultations.
- Access to the **Europlanet Early Career Network (EPEC)** for early career researchers.
- Privileged access to the Europlanet Society's Newsletters and **Members Area**.
